

Dust Control Systems Ltd DCS 11E Auto Bag Shaker Dust Extractor

Stock No	ES1237
Manufacturer	Dust Control Systems Ltd
Model	DCS 11E
Year of Manufacture	1994
Serial	7991
Approx Duty CFM / M ³ /Hr	750 / 1250
Filter Area ft ² / m ²	Approx 120 // 11
Other Info	ATEX Rated Up Scoop Explosion Panel
Location	Our Central Warehouse, Aldridge, UK
Weight (kgs)	400kgs
External Dimensions (WxDxH mm)	1500 x 1250 x 2850mm

Description

The DCS 11E is an extremely versatile fine dust filter, capable of handling numerous dust types over a wide range of applications.

- Self contained centrifugal fan 3kW / 4 Hp.
- ATEX Rated Up Scoop Explosion Panel
- A completely self-contained dust collector with fan, explosion relief, acoustic attenuator and automatic controller, the DCS 11E uses high efficiency envelope filter elements.

New and Used Process Equipment & Machinery.
Machine Datasheet

- Roof mounted silencer.
- Designed to accept combinations of air volumes and filtration areas to meet varying applications of intermittent processes.
- This unit benefits from a pre-separation chamber allowing heavy and abrasive dust to be filtered out before the dust laden air meets the filter media.
- The filter performance enables the re-circulation of filtered air back into the process area, promoting cost savings through energy efficiency by the return of treated air (heating or conditioning).

Photographs taken prior refurbishment. Our refurbishment service is not available on all machines.
