Description

A well made second hand Industrial Vacublast, Ventus 72S self contained suction venturi fed shot blast cabinet. For manual light to medium blasting applications.

This equipment offers a faster alternative to labour intensive operations such as hand deburring, scraping and wire brushing, chemical cleaning, acid etching or dipping, liquid honing, knife trimming, sanding, grinding and many others.

Features includes:

The Marketplace for Surface Technology.
New and Used Process Equipment & Machinery.
Machine Datasheet

- Air pressure blasting regulator and gauge.
- Right hand side opening door
- Large viewing window
- Internal lighting
- Self storage hopper
- 2 x large portal gloves of easy movement
- Foot pedal blast operation
- Under slung dust extractor with manual cleaning facility

Suitable for a customer with an existing centralised dust extraction facility or alternatively a suitable extractor can be supplied from our extensive stocks in the 300-500 cfm range.

Photographs taken prior refurbishment. Our refurbishment service is not available on all machines.
