

MecWash Aquasave A30 Water Processing Unit

Stock No	MA710
Manufacturer	MecWash
Model	A30
Year of Manufacture	Nov 2010
Serial	AQ322
Condition	Seen working by RSW, Current Model
Work Envelope (WxDxH mm)	N/A
Process Stages	Continuous
Other Info	Environmentally Friendly
Location	Our Central Warehouse, Aldridge, UK
External Dimensions (WxDxH mm)	1300 x 1500 x 2500

Description

MECWASH AQUASAVE WATER RECYCLING UNIT

The Aqua-Save wash water/rinse water recycling system is ideal to be used with any water washing or rinsing machine and will sustain pristine wash and/or rinse quality and greatly reduce the need for water changes and hence effluent disposal.

The Aqua-Save maintains optimum process performance, reduces downtime and satisfies environmental demands for

recycling and waste reduction.

BENEFITS

- Up to 95% reduction in disposal costs.
- Range recycles 15 – 50 litres per hour.
- Wash water, waste coolants & general waste water all treated.

Requirements

- 3 phase electricity.
- 45 amp supply.
- Compressed air at 5.5 bar.

Features

- Inlet and outlet connections.
- Drain hose for the concentrated waste oil.
- Dosing system for the pre-heat tank for cleaner or anti-foaming solution.

Photographs taken prior refurbishment. Our refurbishment service is not available on all machines.
