

Almor Group E700 Very Heavy Duty Electric High Temperature Air Circulated Heat Treatment Oven

Stock No	OB2296
Manufacturer	Almor Group
Model	E700/12.12.12
Year of Manufacture	2008
Serial	F080004
Condition	From a working environment, Good Condition, Current Model
Internal Size (WxDxH mm)	1300 x 1450 x 1250
Max Temp	700°C
Other Info	Vertical Powered Uprising Door
Location	Our Central Warehouse, Aldridge, UK
Weight (kgs)	3145
External Dimensions (WxDxH mm)	2230 x 2300 x 4120

Description

Almor 48kW, 700°C, industrial oven with a vertical powered uprising door and twin internal air recirculation fans

Almor has more than 90 years experience in the design of electric furnaces and ovens gained through its furnace arm (Wild Barfield Est in 1917). Over this time an extensive range of proven “standard” designs have been developed and

The Marketplace for Surface Technology.

now incorporate the latest technology in furnace control systems. Recognised industry leader in the UK for design, engineering, manufacture and after-market support for industrial high temperature ovens and furnaces to accommodate a wide range of applications.

Ideal for:

- Annealing
- Tempering
- Aging
- Core hardening
- Drying
- Preheating
- Curing
- Component testing

Control Panel:

- Eurotherm 2166 overtemperature controller (Calibration next due 18/08/2022)
- Eurotherm 2416 Temperature controller
- Fan on/off
- Heat on/off
- Panel on/off
- Relay reset
- Mains isolator
- Indicator lights for over temperature, power, fan and heat

Features

- Powered vertical lift door
- Twin air recirculation fans
- Fire brick heavy duty loading base
- Mild steel construction with stainless steel lined chamber

Photographs taken prior refurbishment. Our refurbishment service is not available on all machines.
