

Guyson International 1400 Mediblast Shot Blast Cabinet Only

Stock No	SE1071
Manufacturer	Guyson International
Model	1400
Year of Manufacture	2008
Serial	804846
Condition	From a working environment, Good Condition, Current Model
Work Envelope (WxDxH mm)	815 x 560 x 591
Work Handling Method	Manual
Other Info	Fully Stainless Steel Construction
Location	Our Central Warehouse, Aldridge, UK
Weight (kgs)	70Kg
External Dimensions (WxDxH mm)	870 x 620 x 1560

Description

The Guyson Mediblast range made from high chrome 316L surgical stainless steel has been specially engineered for medical product manufacturers and laboratories where the introduction of ferrous contamination would be detrimental to the production process.

Only Used in the Medical Industry

This plant is one of several machines acquired during a recent site clearance of a company supplying medical equipment.

The maintenance and servicing was conducted in line with the medical industries requirements. Any faults were corrected immediately working to the highest standards.

Cabinet Specification

Bearing the Guyson brand name guarantees the highest levels of efficiency, reliability and quality. The strong, durable, high quality stainless steel sheet metal construction ensures the cabinet is tough enough for a variety of components and regular use.

The foot pedal operated blast gun is ideal for small workshops, garages and maintenance departments.

Additional Features

- Blast gun and spray off gun.
- Mesh grid base plate.
- Adjustable back wall mounted, blast gun fixing bracket.
- Internal light.
- Large front viewing window.
- Foot pedal operation.

Photographs taken prior refurbishment. Our refurbishment service is not available on all machines.
