

Ransohoff Dunk Wash Unit

Stock No	DE1590J
Manufacturer	Ransohoff
Model	60 Litre Dunk Wash
Serial	760
Condition	From a working environment, Good Condition
Work Envelope (WxDxH mm)	500 x 370 x 160 : 275Litre Tank Capacity
Process Stages	Immersion & Agitation
Other Info	max temp 80 °c
Location	Our Central Warehouse, Aldridge, UK
External Dimensions (WxDxH mm)	850 x 930 x 1660mm

Description

This second hand Ransohoff immersion / dunking / washing plant mechanically agitates parts in a chemical solution to effect a high quality cleaning operation.

The agitating method is simple:

Moving the dirty parts up and down in the process solution shears dirt from the parts with the flushing action. Large parts can be placed on a parts fixture for individual washing or in a basket for smaller parts. Each vertical motion causes the solution to flood over the surface of the components including any deep recesses or pockets with a plunger action. This removes all types of dirt and grease utilising a wide range of aqueous cleaning solutions.

New and Used Process Equipment & Machinery.
Machine Datasheet

The simple design is virtually trouble free.

Feature include:

- Stainless steel construction.
- Lift away lid.
- Side weir.
- Bottom drain valve.
- Stroke / speed adjustment.
- Suitable for cellular manufacturing layouts.
- 9kw electric heating (TBC)
- 275 litre tank capacity.
- Overall dimensions 850 x 930 x 1660mm

Photographs taken prior refurbishment. Our refurbishment service is not available on all machines.
