

Ransohoff Dunk Wash Unit

Stock No	DE1591J
Manufacturer	Ransohoff
Model	WMSD-1
Year of Manufacture	1998
Serial	816
Condition	Good Condition
Work Envelope (WxDxH mm)	520x370x160mm : 275Litre Tank Capacity
Process Stages	Immersion & Agitation
Other Info	Max Temp 80 °C
Location	Our Central Warehouse, Aldridge, UK
External Dimensions (WxDxH mm)	850 x 900 x 1670mm

Description

This second hand Ransohoff immersion / dunking / washing plant mechanically agitates parts in a chemical solution to effect a high quality cleaning operation.

The agitating method is simple:

Moving the dirty parts up and down in the process solution shears dirt from the parts with the flushing action. Large parts can be placed on a parts fixture for individual washing or in a basket for smaller parts. Each vertical motion causes the solution to flood over the surface of the components including any deep recesses or pockets with a plunger action. This

removes all types of dirt and grease utilising a wide range of aqueous cleaning solutions.
The simple design is virtually trouble free.

Feature include:

- Stainless steel construction.
- Side weir.
- Bottom drain valve.
- Dunking speed adjustment.
- Suitable for cellular manufacturing layouts.
- 9kw electric heating (TBC)
- 275 litre tank capacity.
- Overall dimensions 850 x 900 x 1670mm

Power

- 415 volt, 3 phase, 50 Hz.
- Current 18 Amps
- Total power 12.1 kW

Photographs taken prior refurbishment. Our refurbishment service is not available on all machines.
