

Ransohoff Dunk Wash Unit

Stock No	DE1592J
Manufacturer	Ransohoff
Model	600 Litres Dunk Washer
Serial	MC 881
Condition	From a working environment, Good Condition
Work Envelope (WxDxH mm)	740 x 570 x 200
Process Stages	Immersion & Agitation
Other Info	Max temp 65 °C, Oil Skimmer
Location	Our Central Warehouse, Aldridge, UK
External Dimensions (WxDxH mm)	1380 x 1100 x 1700mm

Description

This second hand Ransohoff immersion / dunking / washing plant mechanically agitates parts in a chemical solution to effect a high quality cleaning operation.

The agitating method is simple:

Moving the dirty parts up and down in the process solution shears dirt from the parts with the flushing action. Large parts can be placed on a parts fixture for individual washing or in a basket for smaller parts. Each vertical motion causes the solution to flood over the surface of the components including any deep recesses or pockets with a plunger action. This removes all types of dirt and grease utilising a wide range of aqueous cleaning solutions.

New and Used Process Equipment & Machinery.
Machine Datasheet

The simple design is virtually trouble free.

Feature include:

- Red Lion digital controller.
- Stainless steel construction.
- Side spray bar.
- Interlocked lid.
- Side weir with oil skimmer.
- Bottom drain valve.
- Stroke / speed adjustment.
- Suitable for cellular manufacturing layouts.
- 9kw electric heating
- 600 litre tank capacity (TBC)
- Overall dimensions 1380 x 1100 x 1700mm

Photographs taken prior refurbishment. Our refurbishment service is not available on all machines.
