

ESTA GmbH OM 12 Mini Dust Extractor

Stock No	EE2235J
Manufacturer	ESTA GmbH
Model	OM-12
Year of Manufacture	2007
Serial	21122
Condition	From a working environment, Excellent Condition, Current Model
Approx Duty CFM / M ³ /Hr	470 // 800
Filter Area ft ² / m ²	103 // 9.6
Other Info	Max. negative pressure 1800Pa
Location	Our Central Warehouse, Aldridge, UK
Weight (kgs)	70
External Dimensions (WxDxH mm)	740x 610 x 1150mm

Description

OM series mini dust collectors offer multiple possible applications in dust-generating machines. They are used for almost all types of dust and feature powerful suction capacity and low operating noise. For occasional use, they are suitable for uninterrupted operation and not overly-large volumes of dust. These devices are often used in the electronics industry, surface technology and metalworking firms.

Possible Applications: ☐

- Intermittent or continuously use with small amounts of dust. ☐
- Electronics industry. ☐
- Metalworking industry. ☐
- Surface engineering. ☐
- Machine building industry.

Benefits ☐

- Powerful 1.1kW fan.
- Suitable for nearly all types of dust. ☐
- Versatile in its use. ☐
- Cleanable, long life pocket type fabric filter. ☐
- Low operating cost. ☐
- Minimal space requirement.
- Secondary Filter.

Features: ☐

- Integrated spark pre-separator.
- 8 Cleanable pocket type fabric filter through crank mechanism.

Modifications: ☐

- Different filter materials are available. ☐
- Exhaust air connection. ☐
- Sound dampening muffler. ☐
- Mobile unit.
