### Description

This traditionally built second hand Canning model 1612 Polishing machine is predominately used with polishing mops, buffs and bobs but can also be used with a wide range of rotary abrasive tools, i.e. abrasive impregnated nylon wheels, abrasive brushes, flap wheels, deburring wheels, wire wheels etc.

The 1612 is one of the most widely used heavy duty manual polisher ever produced and is equipped with 4 heavy duty bearings for long life, double ended spindle ends for flexibility and is powered by a single robust high torque motor.

### Features

The Marketplace for Surface Technology.  
New and Used Process Equipment & Machinery.  
*Machine Datasheet*
