

Filtex FX440 H Dust Extractor with Explosion Relief Panel

Stock No	EE2254
Manufacturer	Filtex
Model	FX440H
Year of Manufacture	1998
Serial	8576
Condition	From a working environment, Excellent Condition
Approx Duty CFM / M ³ /Hr	3525CFM // 6000m ³ /Hr
Filter Area ft ² / m ²	440ft ² // 40.8m ²
Other Info	ABB Motor, Explosion relief panel
Location	Our Central Warehouse, Aldridge, UK
External Dimensions (WxDxH mm)	1250 x 1080 x 3000mm

Description

This preowned FX440 H dust extractor delivers powerful & reliable performance with its 7.5kW / 10Hp motor. Designed for versatility, it efficiently handles a wide range of fine dust types across multiple industrial applications and includes an explosion relief panel.

A completely self-contained dust collector with an integral fan, acoustic attenuator and automatic controller, the FX uses high efficiency envelope filter elements to cope with anything from fine & light dusts to heavy & abrasive dusts. The FX is designed to accept combinations of air volumes and filtration areas to meet varying applications of intermittent

processes. The FX benefits from standard zintec steel for even more demanding environments.

The FX filter performance enables the recirculation (in some circumstances) of filtered air back into the process area, promoting cost savings through energy efficiency by the return of treated air.

Specifications

- 7.5kW // 10Hp motor
- Explosion relief panel
- Shaker motor filter cleaning
- Tall hopper for large bag dust collection
- 27 filter bags

Photographs taken prior refurbishment. Our refurbishment service is not available on all machines.
