Description

This is a Unique opportunity to purchase an unused ultrasonic cleaner for the renowned Manufacturer Ultrawave. This Argon 629 Ultrasonic cleaner was purchased for a project that failed to materialise and has now come onto the market at a reduced price. This 500Litre stainless steel tank is powered by 4.8kW ultrasonic generator and transducers with a heating capacity of 9kW. A comprehensive control panel gives control of the system with a 24 hour, 7 day timer and 5 options for cleaning programmes.

Details

- Process tank to the left
- Weir Tank on the right
- Both tanks have independent drain valves.
- Recirculation and dual filter.
- Twin float level sensors are fitted, lower float allows the heaters to operate, the upper one allows the ultrasonics and recirculation pump to work.

A range of 7 detergents are offered from the OEM but others options are available.

- Cost Over £29,000 new.
- Only ever used once for a trial.
- Full Manuals Included.

Photographs taken prior refurbishment. Our refurbishment service is not available on all machines.
