

## Wadkin Bursgreen PLC CP Panel Table Saw

Stock No	<a href="#">ME933</a>
Manufacturer	<a href="#">Wadkin Bursgreen PLC</a>
Model	CP12 Panel Table Saw
Serial	85164
Condition	From a working environment, Good Condition
Capacity	Blades Ø400 x 3.2 Bore Ø25mm
Process Application	Wood / Composites Cutting
Other Info	Ideal for cutting Flat Sheets / Boards
Location	Our Central Warehouse, Aldridge, UK
External Dimensions (WxDxH mm)	2500 x 2400 x 900mm

### Description

A powerful machine with sliding table, canting arbor and scoring saw. Of sound robust construction, incorporating a comprehensive range of standard features usually considered as extras. Highly versatile with a wide range of applications. The CP12 combines the heavy duty features of the large Wadkin Bursgreen CP25 machine with the sliding table of the very popular SP12 machine. For a small capital investment the machine will soon prove to be a valuable asset to any workshop, large or small.

- Any of the CP Range will perform a wide variety of functions with consummate ease and provide the perfect finish.

Cross-cut, mitre and rip fences have graduated, scales with micro adjustment for absolute precision and speed of operation. The sliding table glides effortlessly on specially developed runners which also give maximum support. Operator comfort is further ensured with ergonomically convenient controls and positive adjustments ensuring ease of operation.

- With a precision ground fixed table and wider sliding table than any other similar sized machine, it's not surprising that the CP Range is so popular. The five models in the range offer complete flexibility not only in the size of panel capable of being processed but also materials. These heavy duty canting table saws are capable of cutting panels, boards, solid timber, plastics and "soft" metals - all with the same accuracy and efficiency

### **Spec.**

- CP12 1200 mm - SLIDING TABLE PANEL SAW (WITH SCORING) - Rise, fall and tilt saw, fixed table 1065 x 737 mm (42" x 29"), sliding table 1350 x 1300 mm (53" x 51"), fitted with cross cut fence with stop bar and two stops. 4 kW (5.5 HP) (3 phase).
