

Donaldson Torit (DCE) DCE UMA 254 G8 Dust Extractor

Stock No	EF2275
Manufacturer	Donaldson Torit (DCE)
Model	UMA 254 G8
Serial	157,320
Condition	From a working environment
Approx Duty CFM / M ³ /Hr	2000 // 3400
Filter Area ft ² / m ²	250 // 25
Other Info	DCE's most powerful 250 series extractor
Location	Our Central Warehouse, Aldridge, UK
Weight (kgs)	300
External Dimensions (WxDxH mm)	1450 x 940 x 2750mm

Description

A second hand DCE Unimaster UMA 254 G8 dust extraction unit designed to stand alongside a very wide range of dust generating machinery and processes.

- The UMA 252 is a compact, self contained fabric filter dust control unit complete with a 5.5 kW // 7.5Hp fan, self cleaning mechanism, explosion relief panel, easy-access filter assembly, & a 4ft3 waste container bucket with quick-release sealer gear

Design features

- Compact Design minimises floor space and fits in virtually any plant layout.
- Versatility.
- To suit a variety of dust collection applications.
- Quiet & Efficient Operation.
- Motors and fan are enclosed in collector housing to minimise noise.
- Waste storage large 4ft³ collection bucket.
- Explosion relief panel, allows for the use with potentially explosive dust covered under the ATEX regulations .
- Quick-Release Lever mechanism allows for easy removal and maintenance of waste storage bin.
- Silencer box reduces noise levels in the environment.
- Inlet Deflector knocks down larger particles into the hopper reducing bag abrasion and increasing bag filter life.#
- Heavy-duty flexible metal inner bag coil inserted into filter bags which keeps the bag envelopes open to maximize airflow and assist in knocking dust off during cleaning cycle.
- Bag-Release Screws allow for easy removal of bags.

Electrical supply 400v/ 3ph / 50Hz / 5.5kw

Photographs taken prior refurbishment. Our refurbishment service is not available on all machines.
