

P&P Products Dust Extractor

Stock No	EF2276
Manufacturer	P&P Products
Model	Floor Mounted 18.5kW
Condition	From a working environment, Good Condition
Approx Duty CFM / M ³ /Hr	8000 // 13,500
Filter Area ft ² / m ²	2688ft ² // 250m ²
Other Info	18.5kW // 24Hp Fan Motor, Inc. Baffles
Location	Our Central Warehouse, Aldridge, UK
External Dimensions (WxDxH mm)	2440x1640x2750mm : Fan=1150x1650x2900+mm

Description

The P & P Products Dust collectors is a systems specifically engineered for dust extraction from a shot blasting room. This machine would lend itself to a various other applications . These collectors use cartridge filters making dust and fume filtration more efficient, compact and cost-effective.

Main Features

- Flow rates up to 8,000 CFM // 13,500M³.
- 12 filter cartridges. Ultra web filter area of 2688ft² // 250M². (2625023E Ultra web)
-

The Marketplace for Surface Technology.
New and Used Process Equipment & Machinery.
Machine Datasheet

18.5kW. / 25Hp. floor mounted fan with internal baffles for noise reduction.

- Closed coverage type (complete system) and quiet operation.
- Fast and easy installation, easy maintenance with quick-access filters.
- Energy cost saving due to low energy requirements.
- Explosion relief panels (4).
- Pressure differential gauge.
- Pulse jet cleaning system.

Connection details

- Inlet Ø600mm
- Roof outlet through 3 baffle plates for noise reduction.
- Outlet size 1600 x 575mm, baffles reduce outlets to 1500 x 85mm.

Photographs taken prior refurbishment. Our refurbishment service is not available on all machines.
