

C&W Specialist Equipment SF/1000 Salt Spray Cabinet, 1050mm Wide Chamber

Stock No	MF934
Manufacturer	C&W Specialist Equipment
Model	SF/1000
Serial	CWL/50708
Condition	From a working environment, Good Condition
Work Envelope (WxDxH mm)	1450 x 1000 x 700mm
Process Stages	Single Stage
Other Info	240 Volt Supply
Location	Our Central Warehouse, Aldridge, UK
External Dimensions (WxDxH mm)	2000mm x 1300mm x 1800mm

Description

Discover durable, high-quality corrosion testing capability with this C&W Specialist Equipment salt spray cabinet featuring a 1450mm wide internal chamber. Built with a polypropylene interior, digital process controls, and full automatic operation, it meets stringent industry standards.

Overview

Corrosion and weather test cabinets are widely used throughout the automotive, paint, surface coating, chemical, aerospace, electronic, offshore and defence industries to test components and coated panels for corrosion resistance. Salt spray tests are found in various forms in many national, international and corporate standards. C+W Cabinets are

designed to meet these stringent requirements and their operation is made fully automatic using precision electronic process control instrumentation.
