

Filtex FX1500 Dust Extractor

Stock No	EF2281
Manufacturer	Filtex
Model	FX1500 H
Year of Manufacture	2002
Serial	7478
Condition	From a working environment, Good Condition
Approx Duty CFM / M ³ /Hr	6,000 - 12,000 // 10,200 - 20,400
Filter Area ft ² / m ²	1500ft ² // 140m ²
Other Info	Large capacity low footprint and hieght
Location	Our Central Warehouse, Aldridge, UK
Weight (kgs)	2300
External Dimensions (WxDxH mm)	2160 x 2350 x 3610mm

Description

The FX1500 is an extremely versatile large capacity fine dust filter, capable of handling numerous dust types over a wide range of applications.

A completely self-contained dust collector, with fan, explosion relief, acoustic attenuator, HEPA secondary filtration for use with dangerous dusts, and automatic controller.

The FX1500 uses a range of high efficiency envelope filter elements tailor to the individual application. It is designed to accept a wide combination of air volumes for differing dusts to meet varying applications of intermittent processes. Hepa filter performance enables the recirculation of filtered air back into the process area, promoting cost savings through energy efficiency by the return of treated air (heating or conditioning).

Available Filter Materials:

- Calico
- Polyester
- Secondary & Absolute
- Treatment Types
- Dust Release
- Epitropic
- Oleophobic
- Glazed
- Anti-static CEB

Unit Size FX1500

- Fan Rating - @ 2240pa
- Course Dust - 20,305m³/h
- Medium Dust - 15,230m³/h
- Fine Dust - 10,150m³/h
- Cloth Area - 1500ft² // 140m²
- Motor Power - 11kw // 15Hp

Photographs taken prior refurbishment. Our refurbishment service is not available on all machines.
