

## AEW Batch Processing Oven With Vertical Uprising Door

Stock No	<a href="#">OF2654</a>
Manufacturer	<a href="#">AEW</a>
Model	1800 Litre Box Oven
Serial	63910
Condition	From a working environment, Good Condition
Internal Size (WxDxH mm)	1440 x 1300 x 960mm
Max Temp	300°C (Can Reach 500°C)
Other Info	Small Footprint
Location	Arriving in our warehouse soon
Weight (kgs)	1206
External Dimensions (WxDxH mm)	1760 x 1860 x 3240mm

### Description

#### AEW Batch Processing Oven With vertical uprising door

- The AEW Batch Processing Oven With vertical uprising door was designed as a space saving medium sized batch oven for general purpose industrial heat treatment purposes.
- This AEW air circulated heavy duty industrial electric batch oven is suitable for a wide range of industrial processes.
- The vertically operated door provides a space saving footprint, not requiring any forward space to gain access to

the chamber. The door is easily operated with the attached lifting chain and counterbalanced weight allowing one handed operation. The door itself runs in guide rails with an end closure ensuring a tight seal on the process chamber.

- Complete with control panel including Eurotherm dual display temperature controller with set point, indicator lights for heaters and fan stop/start buttons,

**Features include:**

- Heavy duty carbon steel construction.
- Counterbalanced vertical uprising door.
- Generous process chamber.
- Stand mounted for ease of loading.
- Vertical airflow pattern.
- Exhaust spigots with adjustable damper.
- 24kW of installed heater load.
- Modern Eurotherm dual display temperature controller.

**Photographs taken prior refurbishment. Our refurbishment service is not available on all machines.**
