

EMC-Italy Easy Gloss M1220 Reciprocating Flatbed Polisher

| | |
|--------------------------------|---|
| Stock No | PF1222 |
| Manufacturer | EMC-Italy |
| Model | Easygloss |
| Year of Manufacture | 2020 |
| Serial | 111.11.02 |
| Condition | From a working environment, Good Condition, Current Model |
| Hp/Kw | 9.0kW |
| Other Info | Working width: 1220mm |
| Location | Our Central Warehouse, Aldridge, UK |
| Weight (kgs) | 2110 |
| External Dimensions (WxDxH mm) | 3900 x 2200 x 1850 |

Description

EMC Easy Gloss M1220 Reciprocating Flatbed Polisher

Preview information: Technical specification to be confirmed by Riley Surface World engineers.

High-quality polishing of metal parts via a reciprocating, oscillating brush. Capable of processing flat and curved surfaces with a working width of 1220mm and a working height of 0-295mm.

The Marketplace for Surface Technology.
New and Used Process Equipment & Machinery.
Machine Datasheet

Working width – 1220 mm.
Working height – 0-295 mm.
Maximum workpiece dimensions – 2660 x 1220 mm.
Working unit – oscillating reciprocating brush 30 mm (15 mm + 15 mm).

Polishing tech

- Automatic thickness adjustable.
- Adjustable feed speed via an electric inverter.
- Integrated vacuum device for part fixation and/or mechanical clamps.

Electric control panel

- Process management via PLC.
- Automatic curved workpiece processing without geometry programming.
- Automatic working pressure control.
- Electronic touch screen display

Flat part clamping system

EMC Easy Gloss M1250 is equipped with a mechanical clamping system for reliable polishing of flat metal workpieces.

Curved part clamping system

Special clamping system enables polishing of complex metal parts and non-standard surfaces.

Dust Extractor

- A200 Dust Extractor.
- Two Filter bags, Ø480 x 1500mm each.
- 1765CFM // 3000M³/Hr.
- 1.5kW motor.
- 80Kg.

Photographs taken prior refurbishment. Our refurbishment service is not available on all machines.
