

Safety kleen Jetkleen M190 Spray Washer

Stock No	DF1622
Manufacturer	Safety kleen
Model	M190
Year of Manufacture	2019
Serial	12514
Condition	Seen working by RSW, Good Condition, Current Model
Work Envelope (WxDxH mm)	450 x 500 x 700mm
Process Stages	Single Stage, 240Volt
Other Info	100 Litres : 80Kg's Max. Load
Location	Our Central Warehouse, Aldridge, UK
External Dimensions (WxDxH mm)	1190 x 795 x 1735mm (2260mm Door Open)

Description

A high-power , 240Volts parts washer for water-based cleaning

- Jetkleen combines manual parts washing precision with a high-pressure pump to clean components quickly and effectively. It is particularly suited for situations where the components are light and small enough to be held in one hand.
- Up to 10 times faster than traditional manual parts washers.
- Suitable for cleaning heavy oil, stubborn contamination, grease and dirt from small parts from engine components,

gearboxes, drive mechanisms, and fixings and fastenings

- Twin LED system and the large window design allow operators to inspect while they clean
- Designed to reduce energy use while delivering powerful cleaning performance

Machine features

- Four levels of filtration to ensure top quality cleaning performance
- A hand-directed high-pressure spray (35 bar with a flow rate of 12 litres per minute)
- Fine filtration to extend the life of your chemistry and ensure the fluid delivered to the component is as clean as possible
- Large viewing window with high performance LED for greater cleaning visibility
- Fully insulated to ensure low electricity consumption
- Foot pedal operation leaves both hands free for cleaning

Photographs taken prior refurbishment. Our refurbishment service is not available on all machines.
