Summary of the Products Below:

Grade 1P/13 - Phenolic Paper Resin Laminated Plastic

- Type of Synthetic Resin Bonded Paper (SRBP).
- Cost effective commercial paper based laminate.
- Designed for when an economical material is required with moderate electrical capacity.
- A go-to low voltage insulation material.

- Good mechanical & impact strength.
- Suitable for machining.
- Commonly used for spacers, base/side plates and simple jigs & fixtures.

Whale Brand - Medium Weave Cotton Fabric Laminate

- Type of Synthetic Resin Bonded Fabric (SRBF).
- General purpose grade for mechanical applications.
- Offers well-balanced physical properties including strength, toughness, and wear resistance.
- Suitable for low-voltage electrical insulation only.
- The standard option within laminated materials for versatile everyday use.
- Commonly used for components such as gears, spacers, jigs, fixtures, and wear parts.
