

Filtex FX175 H Dust Extractor

Stock No	EF2305
Manufacturer	Filtex
Model	FX175H
Year of Manufacture	2010
Serial	11059
Condition	From a working environment, Good Condition
Approx Duty CFM / M ³ /Hr	1350 cfm @ 7.0" swg 2300 M ³ /Hr @ 178mm
Filter Area ft ² / m ²	175/ 16.25m ²
Other Info	Secondary Hepa Filter (TBC)
Location	Our Central Warehouse, Aldridge, UK
Weight (kgs)	400
External Dimensions (WxDxH mm)	1550 x 970 x 2550mm

Description

This second hand FX175H 4kW // 5.5 Hp self contained centrifugal extraction fan is an extremely versatile fine dust filter, capable of handling numerous dust types over a wide range of applications.

Features

- Self contained dust collector with integral fan, acoustic attenuator and automatic controller. Using a high efficiency

envelope filter elements to cope with fine and light dusts.

- Compatible with various combinations of air volumes and filtration areas to meet varying applications of intermittent processes.
- Benefits from standard zintec steel for even more demanding environments.
- Performance enables the recirculation (in some circumstances) of filtered air back into the process area, promoting cost savings through energy efficiency by the return of treated air.

Technical Specifications:

- Model - FX 175H
- Capacity - 1350 cfm @ 7.0" swg 2300 m3/Hr @ 178mm
- Fan size - 4.0kW // 5.5 Hp
- Filter area - 175ft² // 16M²
- Secondary Hepa filter (TBC)
- Bin capacity - 5.3ft³ // 150 litres
- Noise level - 76dB(A)
- Overall dimensions - 1550mm x 970mm x 2550mm
- Weight - 400kg

The above design duties are based on an 8:1 cloth to air ratio.
