

Heaton Green Dust Extractor

Stock No	EF2315
Manufacturer	Heaton Green
Model	EJFCD20L/10/7.5kW Heaton Green Dust Extractor
Serial	7323
Filter Area ft ² / m ²	Filter area (per row) - 20m ²
Location	Our Central Warehouse, Aldridge, UK

Description

Description

The ECONOJET is a versatile dust collector, designed around a flat pad filter configuration, cleaned during operation by a reverse pulse of compressed air.

Thanks to its versatility ECONOJET dust collector filters have been used in applications ranging from small silo venting

filters to much larger “bag house” type filtration units.

Used across a wide variety of industries, the ECONOJET has proved itself in many applications and continues to be one of the bestselling dust collector filter systems.

- Model Number - EJFCD20L/10/7.5kW
- Number of Tiers – 1
- Single Row
- Fan Assisted
- Filter area (per row) - 20m²
- Filter Bag Length – 1500mm
- Number of Valves - 10
- Fan - 7.5kW

Air Cylinder information

- Temp -20 +80
- Y of M 2014
- Max Pressure 8 bar
- Volume 21.3 L
- S/no 266396
